Logan Buzzell has been passionate about basketball since childhood, playing organized ball through high school. After graduating, he began coaching at Bethel Lutheran School in Morton, where he led teams for four seasons. He currently teaches Physical Education at Christ Lutheran School and has coached basketball there for the past three years.

In addition to his school roles, Logan has spent multiple summers working with youth of all ages at various sports camps, focusing on skill development and character building. He is currently completing his Bachelor's degree in Health, Physical Education, and Recreation, further strengthening his foundation in athletic development and youth mentorship.

Logan's coaching philosophy centers around creating a positive, fundamentals-based environment where athletes can grow in both skill and confidence. His goal is to help young players develop strong habits, teamwork, and a love for the game.

In Logan's basketball training sessions, athletes will work on core skills such as shooting mechanics, ball handling, passing, footwork, defense, rebounding, and game awareness. He emphasizes drills that build coordination, decision-making, and court vision—preparing athletes to succeed in both practice and competition.
